In the originally published article [1] (DOI: 10.22514/sv.2023.100), the statement regarding informed consent in the Ethics section was incomplete.

The authors have clarified that the Institutional Review Board waived the requirement for written informed consent for this retrospective case report.

Original statement:

“The study was approved by the Institutional Review Board of Soonchunhyang University Bucheon Hospital, South Korea (IRB file no. 2023-01-004). Oral informed consent was obtained from the patient for publication of this case report.”

Corrected statement:

“The study was approved by the Institutional Review Board of Soonchunhyang University Bucheon Hospital, South Korea (IRB file no. 2023-01-004), which waived the requirement for

written informed consent. Oral informed consent was obtained from the patient for publication of this case report.”

The authors confirm that this correction does not affect the scientific content or conclusions of the article.

The authors apologize for any confusion caused. This Correction has been approved by the Editor-in-Chief. The original article PDF remains available as published and has not been altered. Readers are advised to refer to this Correction for the corrected ethics statement.
