In the originally published article [1] (DOI: 10.22514/sv.2025.169), post-publication review by the Editorial Office identified that References [4] and [5] in the Introduction section did not accurately support the statements for which they were cited.

In collaboration with the authors, the following corrections have been made in this Correction:

Replacement of References

References [4] and [5] have been replaced with more relevant citations:

[4] Kregel HR, Murphy PB, Attia M, Meyer DE, Morris RS, Onyema EC, *et al.* The Geriatric Nutritional Risk Index as a predictor of complications in geriatric trauma patients. *Journal of Trauma and Acute Care Surgery*. 2022; 93: 195–199.

[5] Rong A, Franco-Garcia E, Zhou C, Heng M, Akeju O, Azocar RJ, *et al.* Association of nutrition status and hospital-acquired infections in older adult orthopedic trauma patients.

Journal of Parenteral and Enteral Nutrition. 2022; 46: 69–74.

The authors confirm that these corrections are limited to the replacement of two references. The scientific content, study design, data analysis, results, interpretations, and conclusions of the original study remain unchanged.

The authors sincerely apologize for these inaccuracies and any inconvenience caused. This Correction has been approved by the Editor-in-Chief. The original article PDF remains available as published and has not been altered. Readers are advised to refer to this Correction for the updated References [4] and [5].
